

## MEETING NOTES

February 7<sup>TH</sup> 2001

President Cheryl Baugh called the meeting to order at 7:10 p.m..

Secretary Gail Bauer read the minutes from last January's meeting.

A correction was noted: A cotton long sleeved shirt is required **only** at Hillclimb.

A clarification was noted: Of the 8 races this season we will count the best 6 for year-end trophies. A competitor must run at least 6 races (2/3 of the series, rounded up to the nearest whole race) to receive a year end trophy.

Treasurer Jim Mueller gave the treasurer's report.

### Old Business

We discussed the fees that were mentioned as due for this coming season.

Autocross fees for the trophy series are as follows:

Members \$15.00

Non members \$20.00

IceBreaker fees will be \$5.00 higher, to help pay for special T-shirts.

Members \$20.00

Non members \$25.00

There are several options for paying. You can pre-pay for the remainder of the season as late as the 4<sup>th</sup> event, however once you pre-pay there are **no** refunds.

This racing season we can look forward to having 4-5 runs per event day, with the exception of

IceBreaker where we may have 3 runs due to large attendance.

A reminder to dress warmly for Ice Breaker, as it is often *chilly* this time of year.

Tim Steck brought up point calculations, he passed out his proposed new system for trophy point calculation for everyone to review. Tim explained the pros and cons, comparing the proposed and existing systems. Cheryl asked if we could try it out by running both systems in parallel for a while, just to see how this works. After a great deal of discussion, a majority of those present voted to retain the current calculation system.

### NEW BUSINESS

Tim Steck has been working hard on our website and would like to purchase a piece of software to create feedback forms on the website. The cost of \$99.00 dollars was approved.

This Saturday at 9am we are installing the air conditioner in the timing trailer, anyone who can help please be at Bill and Cheryl Baugh's: 25820 Butler Rd. Junction City.

### **ICE BREAKER - MARCH 4<sup>TH</sup> 2001**

Early tech and preregistration on Saturday, and regular tech and registration Sunday were planned and volunteers were recruited.  
Set up for the event will be on the March 3<sup>rd</sup> starting at 3pm at the Coca Cola Plant.

There will be a flyer party on February 15<sup>th</sup> at Jim's office at 6pm  
Mueller, Yuva & Osterman  
377 Pearl Street

We discussed generators. Pat Ezard was 99% sure that we could get a free 5.5 KW generator from Monaco, but it would need some work, possibly only a new carburetor. Arlie Cooper said we could buy a brand new one from Graingers, 4.5 KW, portable, pull start, 9.5 HP for \$499.00 dollars. We talked about the cost of repairing the one from Monaco vs. buying the new one. We decided to let Pat go ahead, and asked Arlie to confirm availability.

Meeting was ajourned at 8:34 p.m.
