### **Old Business**

#### Venue Update

- Valley River Center stated there is a slight possibility that we can return next year. Stay tuned!
- Oregon State Fairgrounds – He is in the process of setting a meeting date
- Florence Airport – He has a meeting set with them next week

- Glory Bee – He is still talking with them.
- Brenda Kipperman – Is checking out the old k-mart site in Roseburg and will let Lorin know if it's worth a trip

#### 501C3 Foundation Update

Licia Shultz stated there is no update today. A meeting needs to be set in the fall. She queried whether anyone knew a grant writer. It was mentioned that racer Steven Brantley would be interested.

#### Event 7 and 8 Recap

Keith Olsen reported the following:

- There were many compliments and a few gripes
- He greatly appreciated Chris Nunes in the co-chair position. He took on the task and kept things flowing well.
- We had a great turnout on Sunday considering IROC. There were 103 competitors and 36 IROC participants.
- Bonnie Mueller reported sound meter readings were much better; however we had a missing page which Tim Steck said he may have it.

#### IROC Recap

Licia Shultz reported 36 people ran IROC. She gave many thanks to so many: Jeff Childers for in car videos, David Mills – track video and still photos, Bert Jacobson – IROC car, Tim Steck – the numbers, Allen Bowers – cheer leader, Steven Brantley – timing, and Ryan Rink – timing helper. Licia has volunteered chair IROC next year.

## Year End Trophy Qualifications

Tim Steck stated this has been an unusual year and we have 4 drivers that have qualified for year-end trophies, but not for class trophies. After much discussion, it was decided they would receive the same trophy as all participants, but no class designation on the trophy.

## Catch All Class

Ryan Rink presented the new class and qualifications.

- Class designation – “DDO” Daily Driven Open
- Rules:
  - Must pass tech and sound regulations
  - Must be driven to the event (no trailered cars) and currently registered for street use
  - Must compete as driven to event – No Tire Changes (unsecured/easily removed item may be removed, i.e. removable tops, unsecured sub-woofers etc)
  - Tires must be deemed street able by manufacture, i.e. DOT Hoosiers say not intended for highway use so would not be a “Street-able” tire, but various 60TW and higher tires are sold as street-able track and competition.
- No actual PAX will be assigned.
- This class will most likely attract more participants.
- A motion was made to add the “Catch All” class DDO for 2019. It was seconded and passed.

## Blower Replacement

Jerry Braunberger provided a blower update. The Options he presented were:

- Repair the existing blower
- Purchase a new engine for the existing blower
- Purchase a new blower for around \$1500.00. Any new blower must be able to mount like the old one.

More research to be done.

## Road Cleanup Recap

Bonnie Mueller stated 8 people attended this event. 18 bags of garbage were gathered. A pocket knife was found and a belt buckle picture. She reminded us the next clean-up is scheduled for Sunday, November 4<sup>th</sup>. We would love for some younger people to attend this community event.
